*The Prix de Lausanne follows the development of future dance talents throughout the year through various activities which culminates into the most prestigious classical ballet competition in the world. The first edition of the competition, designed for 15 to 18-year-old dancers, took place in 1973. Since then, it has become a major annual event in the dance sphere on a worldwide scale, and its goal remains unchanged: to identify, promote and help the best young dance talents around the world. Today, after 49 editions, the Prix de Lausanne is considered the most prestigious ballet competition on an international level and the foundation upholding and organising it has morphed into a wide scale charity, well beyond the initial event. We support the most promising young talents throughout the year through various education and training activities. The Prix de Lausanne allows them to live a unique experience that will serve them throughout their career. As a development partner, we provide them with a healthy environment to reach their full potential. That is why we have developed a vast network of partners to strive for excellence in this exceptional artistic dance field.*
